Call us today for a chat and see if we can be of help to your organisation

Hey there, Future Achievers!

Wondering what a Group Training Organisation (GTO) is? Let's break it down. A GTO, like us at Impact Services, is all about kick-starting your career. We hire apprentices and trainees like you, then match you up with fantastic businesses where you can learn and grow.

## What's in store for you?

At Impact Services, you can train in a variety of industries like Automotive, Building and Construction, Electrical, Food, Hospitality and Tourism, Light Manufacturing, Metals and Services, Horticulture, and Personal Services. So, whether you're a budding mechanic or a future chef, we've got a place for you!

## Why Choose Impact Services?

Are you a school student eager to jumpstart your career and gain hands-on experience while still in school? Impact Services offers a fantastic opportunity to embark on an apprenticeship or traineeship that will set you on the path to success!

At Impact Services, we are passionate about helping young people like you discover your potential and achieve your dreams. We connect school students with valuable apprenticeship and traineeship programs across various industries. Whether you're interested in trades, technology, healthcare, or another field, we have opportunities that align with your interests and career goals.

Joining an apprenticeship or traineeship with Impact Services means learning from experienced professionals, developing practical skills, and earning while you learn. Imagine getting a head start in your career, building a strong foundation of knowledge and expertise, and gaining a competitive edge in the job market—all while completing your school education!

Our programs are flexible, allowing you to balance your school commitments with on-the-job training. You'll receive guidance and support from our dedicated team every step of the way.

## Apprenticeship or Traineeship? What's the difference?

Whether you become an apprentice or a trainee mostly depends on your learning focus. Are you passionate about a specific trade? Then an apprenticeship could be your path. Or do you want to gain a wide range of workplace skills?

Then a traineeship could be right for you. Apprenticeships are typically longer than traineeships, but either way, you'll get the best in-depth industry learning possible!

## What will you be doing?

As an apprentice or trainee, you'll combine work with learning, completing assessments, and of course, asking for help when you need it. You'll also be part of a team, attending work and following instructions.

Remember, these could be some of the best years of your life if you go in with a positive mindset. Who knows, you could even find your dream job!

## How do we fit in?

## Why Impact Services?

We're not just a GTO, we're a network. We're connected to top employers and quality training organisations. We've built strong partnerships to make sure you get the best training and career start possible.

## Our Goal?

To empower you to become a skilled professional with a recognised qualification. To help you make your mark.

So, ready to make an impact? Join Impact Services today! Let's make the leap from school to career, together.
